# Medical Supplies and Equipment

#### **General Payment Policies**

- MAA reimburses providers for certain medical supplies and equipment (MSE) dispensed from their offices when these items are considered prosthetics and are used for a client's permanent condition (see the list beginning on page K.2).
- Most MSE used to treat a client's temporary or acute condition are considered incident to a provider's professional services and are bundled in the office visit reimbursement (see list beginning on page K.2). MAA reimburses providers separately for only those MSE listed beginning on page K.4.
- MAA does not reimburse providers separately for surgical trays, as these are bundled
  within the appropriate surgical procedure. The fees for these procedures include the cost
  of the surgical trays.
- Procedure codes for MSE that do not have a maximum allowable fee and cost less than \$50.00 are reimbursed at acquisition cost. A manufacturer's invoice must be maintained in the client's records for MSE under \$50.00 and made available to MAA upon request.
   DO NOT send in an invoice with your claim for MSE under \$50.00 unless requested by MAA.
- Procedure codes for MSE that do not have a maximum allowable fee and cost \$50.00 or more are reimbursed at acquisition cost. You must attach a copy of the manufacturer's invoice to your claim for MSE costing \$50.00 or more.

(B)

**Note:** To request prior authorization for MSE, write or fax:

Division of Medical Management DME Program Management Unit

PO Box 45506

Olympia, WA 98504-5506

360-586-5299 (fax)

#### **Supplies Included in an Office Call (Bundled Supplies)**

Items with an asterisk (\*) in the following list are considered prosthetics when used for a permanent condition. MAA reimburses providers for these supplies when they are provided in the office for permanent conditions **only**. They are not considered prosthetics if the condition is acute or temporary. Providers must indicate "prosthetic for permanent condition" in the *Comments* section of the claim form.

For example, if a patient has an indwelling Foley catheter for permanent incontinence and a problem develops for which the physician is required to replace the catheter, it is considered a prosthetic and is paid separately. The Foley catheter used to obtain a urine specimen, used after surgery, or used to treat an acute obstruction is not paid separately because it is treating a temporary problem.

**Note:** MAA continues to evaluate and adopt Medicare's Correct Coding Initiative (CCI) policies and edits. Therefore, any procedures or services that are currently bundled by Medicare are bundled by MAA as well.

HCPCS	Brief
Code	Description
A4206	Syringe with needle, sterile 1cc
A4207	Syringe with needle, sterile 2cc
A4208	Syringe with needle, sterile 3cc
A4209	Syringe with needle, sterile 5cc
A4211	Supplies for self-administered injections
A4212	Huber-type needle, each
A4213	Syringe, sterile, 20 CC or greater
A4215	Needles only, sterile, any size
A4220	Refill kit for implantable
	infusion pump
A4244	Alcohol or peroxide, per pint
A4245	Alcohol wipes, per box
A4246	Betadine or phisohex solution, per pint
A4247	Betadine or iodine swabs/wipes, per box
A4253	Blood glucose test, per 50 strips

## Supplies Reimbursed Separately When Dispensed from a Provider's Office

#### **Miscellaneous Supplies**

HCPCS	Brief
Code	Description
A4250	Urine test or reagent strips
A4561	Pessary rubber, any type
A4562	Pessary, nonrubber, any type
A4565	Slings
A4570	Splint
A9900	Miscellaneous DME supply,
	accessory, and/or service
	component of another HCPCS
	code. (To be used only for
	cochlear implant replacement
	parts. PA is required for the
	replacement parts and is
	manually priced by MAA's
	authorization department.)

#### **Casting Materials**

Bill the appropriate HCPCS code (Q4001-Q4049) for fiberglass and plaster casting materials. Do not bill for the use of a cast room. Use of a cast room is considered part of a provider's practice expense.

#### **Metered Dose Inhalers and Accessories**

HCPCS	Brief
Code	Description
A4614	Peak flow meter
A4627	Spacer bag, or reservoir, with/ without mask (for use with
	metered does inhaler)

#### **Inhalation Solutions**

Refer to the fee schedule (Section L) for those specific codes for inhalation solutions that are reimbursed separately.

### Radiopharmaceutical Diagnostic Imaging Agents

Refer to the fee schedule (Section L) for those specific codes for imaging agents that are reimbursed separately.

#### **Miscellaneous Prosthetics & Orthotics**

HCPCS	Brief	
Code	Description	
L0120	Collar-philadelphia child	
L0210	Universal rib belt	
L0515	Industrial back support (not	
	covered for scoliosis)	
L1800	Stabiliz knee sleeve-universal	
L1810	Knee brace hinged	
L1815	Roadrunner knee brace

	PA required.	
L3420	Full sole/heel wedge	
	between. PA required.	
L3430	Shoe heel count plast reinfor	

## **Injectable Drug Codes**

MAA's fees for injectable drug codes are the maximum allowances used to reimburse covered drugs and biologicals administered in a provider's office. MAA follows Medicare's payment policy to set the maximum allowances.

MAA obtains the Average Wholesale Price (AWP) for most of the HCPCS level II drug and biological codes from Medicare's Single Drug Pricer (SDP). MAA's maximum allowable fee is 86% of the AWP or Medicare's rate, whichever is less. MAA updates the rates each time the SDP is updated, up to once per quarter. Unlike Medicare, the MAA effective dates are based on dates of service, not the date the claim is received. For HCPCS codes where the SDP does not establish a rate, MAA determines the maximum allowances for covered drugs using the following methodology:

- 1. For a single-source drug or biological, the AWP equals the AWP of the single product.
- 2. For a multi-source drug or biological, the AWP is equal to the median AWP of all of the generic forms of the drug or biological, or the lowest brand name product AWP, whichever is less. A "brand-name" product is defined as a product that is marketed under a labeled name that is other than the generic chemical name for the drug or biological.
- 3. After determining the AWP according to #1 and #2 above, MAA multiplies the amount by 0.86 to arrive at the fee schedule maximum allowance.

When billing for injectable drugs and biologicals, providers must use the description of the procedure code to determine the units, and include the correct number of units on the claim form to be reimbursed the appropriate amount. For drugs priced at "acquisition cost," providers must:

- Include a copy of the manufacturer's invoice for each line item in which **billed charges** exceed \$1,100.00; or
- Retain a copy of the manufacturer's invoice in the client's record for each line item in which **billed charges** are equal to or less than \$1,100.00.

Do not bill using unclassified or unspecified drug codes unless there is no specific code for the drug being administered. The National Drug Code (NDC) and dosage given to the client must be included with the unclassified or unspecified drug code for coverage and payment consideration.

#### HCPCS codes J8499 and J8999 for oral prescription drugs are not covered.

Injectable drugs can be injected subcutaneously, intramuscularly, or intravenously. The injectable drugs can be billed only from the provider's office supply. The name, strength, and dosage of the drug must be documented and retained in the client's record.

#### Chemotherapy Drug (J9000-J9999)

- Bill number of units used based on the description of the drug code. For example, if 250 mg of Cisplatin (J9062) is given to the client, the correct number of units is five (5).
- Claims with HCPCS code J9999 must include the NDC and the amount of the drug administered to the client in the *Comments* section of the claim form.
- MAA's maximum allowable fee is 86% of AWP or Medicare's fee, whichever is less.

#### **All Other Drugs**

- Bill number of units used based on the description of the drug code. For example, if 20 mg of Hyalgan (J7316) is given to the client, the correct number of units is four (4).
- Claims with HCPCS code J3490 must include the NDC and the amount of the drug administered to the client in the *Comments* section of the claim form.
- MAA's maximum allowable fee is 86% of AWP or Medicare's fee, whichever is less.

#### **Prior Authorization**

Drugs requiring written/fax prior authorization are noted in the fee schedule with a "PA" next to them. For information on how to request prior authorization, refer to Section I.

#### **Rounding of Units**

The following guidelines should be used to round the dosage given to the client to the appropriate number of units for billing purposes:

#### I. Single-Dose Vials:

For single-dose vials, bill the total amount of the drug contained in the vial(s), including partial vials. Based on the unit definition for the HCPCS code, MAA reimburses providers for the total number of units contained in the vial. **For example:** 

If a total of 150 mg of Etoposide is required for the therapy and two 100 mg single dose vials are used to obtain the total dosage, the total of the two 100 mg vials is reimbursed. In this case, the drug is billed using HCPCS code J9181 (Etoposide, 10 mg). If MAA's maximum allowable fee is \$4.38 per 10 mg unit, the total allowable is \$87.60 (200 mg divided by 10 = 20 units x \$4.38).

#### **II.** Billing for Multi-Dose Vials:

For multi-dose vials, bill **only** the amount of the drug administered to the client. Based on the unit definition (rounded up to the nearest whole unit) of the HCPCS code, MAA reimburses providers for only the amount of drug administered to the client. **For example:** 

If a total of 750 mg of Cytarabine is required for the therapy and is taken from a 2,000 mg multi-dose vial, only the 750 mg administered to the client is reimbursed. In this case, the drug is billed using HCPCS code J9110 (Cytarabine, 500 mg). If MAA's maximum allowable fee is \$23.75 per 500 mg unit, the total allowable is \$47.50 [750 mg divided by 500 = 2 (1.5 rounded) units x \$23.75].

#### **III.** Unlisted Drugs:

When it is necessary to bill MAA for a drug using an unlisted drug code, providers must report the National Drug Code (NDC) of the drug administered to the client. MAA uses the NDC when unlisted drug codes are billed to appropriately price the claim. Claims <u>must</u> include:

- The dosage (amount) of the drug administered to the client; and
- The 11-digit NDC of the office-administered drug.

For claims billed using a paper HCFA-1500 claim form, list the required information in field 19 of the claim form.

For claims billed using an electronic HCFA-1500 claim form, list the required information in the *Comments* section of the claim form.

For claims billed using an electronic 837P claim form, list the required NDC information in DRUG IDENTIFICATION Loop 2410, LIN02, and LIN03. List the dosage given to the client in the "*Comment*" section of the claim form.

**Note**: If there is an assigned HCPCS code for the administered drug, providers **must bill** MAA using the appropriate HCPCS code. **DO NOT** bill using an unlisted drug code for a drug that has an assigned HCPCS code. MAA will recoup payment for drugs paid using an unlisted drug code if an assigned HCPCS code exists for the administered drug.

The list of all injectable drug codes and maximum allowable fees are listed in the fee schedule section (Section J).
